CONCERT AND LECTURE.-The concert and lecture for the benefit of the German Lutheran Church will come off this evening. having been postponed from Saturday evening. For particulars see advertisement in another column.

It is thought by some people that South Carolina will go out of the Union in ten days. It's a pity that something does'nt go down there and give them all the small pox or the cholera, and either kill them off or scare them into good behavior. They have a right to do what they please with their own destinies, but they have no right under the constitution to bring "all these hard times" upon the rest of the country.

A STEAMBOAT ON FIRE.-It is not at all difficult for a man that can't swim to find a much more pleasant place than a steamboat when it takes fire at night in the middle of the river. We were along there a few nights ago, while coming up the Cumberland, and ought to know all about it. It was some fifteen or twenty miles below the city. It was cloudy and very dark. We had been lying down for some time, and having got tired of it, concluded to look out and see where abouts we were. Opened the outer door of the state-room, and stepped out upon the guards. Hada n't been there three minutes when somebody on the lower deck cried "fire." Heard the mate calling and giving directions to the hands; heard bucket after bucket plunged into the river; heard the trampling of many feet below, and the sound of many excited voices-all mingled with the splashing of the paddle-wheels, the rattle of the machinery and the many other sounds incident to a steamer under headway. We felt perfectly cool-though not comfortably so; and after listening for some time to the uproar, were just about starting to hunt up the captain and offer him two dollars and a half (payable in puffs) to put us ashore. when the porter came along and announced that the flames, which had spread along the ceiling over the boilers for some distance and commenced devouring a pile of wood, had | flattering symptoms after taking the Syrup is that the see if anybody else was scared. Passengers all there-some reading, some talking, some playing euchre, and nearly all smoking, but not a soul of them aware that an infant conflagration had been raging beneath them not three minutes before. Singly and alone had we borne the scare of a whole steamboat load of passenges? Phancy our pheelings!

JAMES R Hood, E-Q -- Owing to an unexpected absence from home, and a little negligence before that absence began, we failed to notice in these column the fact that our talented young friend JAMES R. HOOD, E-q. of the Chattanooga Gazette, was elected Mes senger by the Electoral College last Wednesday to carry the vote of the State to Washington. We don't know of anybody that would make a better Messenger than Mr. Hoop. The duties of the office require that the incumbent shall possess the ability to find the way to Washington, and as Hoop has been around a good deal, and is one of the discreet men among us who school themselves to "let licker alone," he will make the trip easy enough. We wish him a prosperous and pleasant journey, and a safe return-

THE THEATRE -- RE-ORGANIZATION -- THE FLORENCES .-- After a suspension of one week, Messrs. MUELLER & EVERETT have re-organized their dramatic company on a better and firmer basis, and will re-open the Theatre this evening, with Mr. Wood Benson as Stage Manager. Mr. Bexson understands the business thoroughly, having been connected with the stage for many years, and will bring all his energy, intelligence and experience to the prosecution of his undertaking. Under the state of things which existed before the house was closed a week ago, the Manages did a losing business for some time, owing principally to the pressure in financial affairs; but with their new arrangements we may safely predict their success. We sincerely trust they will receive that liberal enconragement from the 'public they so well merit. Neither they nor Mr. BENSON will spare any effort to please their patrons. They will re-open this evening with Mr.

and Mrs. FLORENCE, two of the most accomplished comedians belonging to the American stage, and whose tame and popularity as such are co-extensive with the Union. The bill for the re-opening is the most attractive of the season, embracing three charming peices-Born to Good Luck, Mischievous Annie, and Bryan O'Lynn.

WHERE TO GET SOMETHING TO READ .- AS dull as the times are, and as difficult as mo ney is to get, the demand for periodical literature is still active. At least we infer us much from the scene we witnessed on Saturday at the periodical depot of Messrs. GREEN & Co. on Union street. Their counters were nilled with all the best of the weeklies and monthlies, and the latest cheap publications of all sorts, and their customers were going and coming in a constant stream. Men, women and children were there with dimes, quarters and halves, buying copies of "Godey," "Harper," "Peterson," "Frank Leslie," "Bennett," the Eclectic. the Knickerbocker, the Ledger, the Waverley, the Weekly. well. My general health and strength is rcury, the Herald, the Cincinnati Commercial, and many other periodicals and literary and political papers. The "Dime Novels" are going off fast enough. Besides these things, Messrs. Green & Co. keep a stock of miscellaneous books, stationery, gold pens. engravings, and a variety of other articles.

OUR PICTURE GALLERY .- A skillful young artist of this city has contributed to our splendid Picture Gallery a fine drawing. representing "Our Sporting Editor Bagging a Rabbit," which we regard as among the gems of the collection. It is well executed, and would be extremely life-like if the aim of the sportsman were a little less accurate, his humane feelings always prompting him to fire a few inches (or feet, as the case may be) out of range, in order to give the game a fair and equitable chance for its life. If the game should fail to run at the first shot, in better health than I have been for many it can blame nobody but itself if the distance is shortened and it is brought down at | tor's remedies to be all he represents them to the second. By bearing these facts in mind, be, and should advise all afflicted to try his the artist will be enabled to make a faultless

Such contributions as this to our art-collection are always thankfully received. When the Parator dies of old age a few centuries and highest premium was awarded to benefit of the public.

Capt. Tay Amalgamation of Languages.—There is a growing tendeacy in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalte, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headacho remedy, but it will sook be used in a more general way, and the word Cephalic will become as common as Electrotype and Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor bora."

be looked on as a safeguard intended to give notice of
disease which might otherwise escape attention, till
too late to be remedied; and its indications should
never be neglected. Headaches may be classified under two asmes, viz: Symtomatic and Idiopathic.
Symptomatic Headache is exceedingly common and is
the precursor of a great variety of diseases, among
which are Apoplexy, Gout, Rheumatism and all febrile
diseases. In its nervous form it is sympathetic of discase of the atomach, constituting rick headache, of
hepatic disease constituting vilious headache, of worms,
conglipation and other disorders of the bowels, as
well as renal and uterine affections. Diseases of the
heart are very frequently attended with Headaches:
Anaemia and plethors are also affections which trequentity secasion headache. Idiopathic Headache is
also very common, being usually distinguished by the
name of nerveus headache, sometimes coming on suddenly in a state of apparently sound health, and prostrating at once the mental and physical energies, and
in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one
or both eyes, and sometimes provoking vomiting;

Constination or Costiveness. No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of teo little consequence to excite anxioty, while in reality it is the precurser and companion of many of the most fatal and dangerous diseases, and unless early cradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant, are Headache, Colic, Rheumatism, Fonl Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhoa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate tom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should riceive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerous foe to human life. A Real Blessing.
